#### Add On Software

#### Add-On Products

ADS 2006 Update 2 contains several add-on software products that add additional functionality to the main product. The add-on software links below are specific to ADS 2006 Update 2.

Add-On Products	Description
<a href="#">ADS 2006 RF IP Encoder – Windows</a>	ADS 2006 RF IP Encoder for Windows (5.47 MB) generates highly detailed and secure models of ADS design circuits that can be shared with other ADS users for simulation and analysis without divulging intellectual property of the encoded circuit.
<a href="#">ADS 2006 RF IP Encoder – Linux</a>	ADS 2006 RF IP Encoder for Linux (67.29 MB)
<a href="#">ADS 2006 RF IP Encoder – Solaris</a>	ADS 2006 RF IP Encoder for Solaris (86.09 MB)
<a href="#">ADS 2006 RF IP Encoder – HPUX</a>	ADS 2006 RF IP Encoder for HPUX (84.2 MB)
<a href="#">Connection Manager Server – Windows</a>	The Connection Manager Server is a separate software download which manages connections between hardware and software.

#### Hotfixes

### Hotfixes for ADS 2006 Update 3

Hotfix	Description
<a href="#">ADS 2008 Licensing Hotfix</a>	<p>This hot fix is required to enable your new licenses to work seamlessly with the following ADS versions:</p> <ul style="list-style-type: none"> <li>• ADS 2008 Update 2</li> <li>• ADS 2008 Update 1</li> <li>• ADS 2008</li> <li>• ADS 2006 Update 3</li> <li>• ADS 2006 Update 2</li> <li>• ADS 2006 Update 1</li> <li>• ADS 2006A</li> </ul>

#### EEsof EDA Licensing Software

### EEsof EDA Licensing Software

You can install the license server files separately and independently from any product installation. For example, if your EEsof products are installed on a Windows machine, but your license server is on a Linux machine, you only have to download and install the Linux version of EEsof EDA Licensing Software, not the complete EEsof product installation.

Please refer to the License Setup chapter of your EEsof EDA product's Installation Guide for more information about setting up a license server.
